Services

Our Professional Services

CBTW – EVMS Services is a team of professionals with decades of experience in developing, implementing, training and documenting project, business, management, and performance measurement systems and software for companies like yours. Our staff is dedicated to training and implementing policies, procedures, and software that make the project management professional more efficient and profitable.

- EVMS **Staff Augmentation**
- EVMS **Tools Implementation and Training**
- EVMS **Services**
- Web Delivered – **Narrated Training**

Staff Augmentation

Our EVMS Resource division has quietly become one of the largest service providers for highly skilled EVMS personnel throughout the United States. If you have a resource shortage, a temporary role that needs to be filled, or a need to backfill an existing role, our EVMS resource division can fill the gap.

Our associates are skilled EVMS Planners, Schedulers, Program Control Analysts, Estimators, and EVMS Consultants, who are perfect for augmenting your staff on a short or long term assignment. We can even help you locate experienced employees, by using our contract-to-hire personnel.

EVMS Tools Implementation and Training

Our resources include EVMS tools experts who can implement, train, integrate, and migrate EVMS data from a variety of tools that are available today.

- **Microsoft Project, and Project Server**
- **Planview MPM**
- **Deltek Cobra**
- **Deltek Open Plan**
- **Deltek wInsight**

EVMS Implementation Services

With the current Government emphasis on Earned Value, many contractors are managing their projects using earned value. CBTW has worked with dozens of Government contractors to assist them with designing and implementing their earned value management system. Our experts come prepared with all the tools necessary for a successful implementation.

Our EVMS services include but are not limited to:

- **-System Description** Design and Development
- **-EVMS Gap Analysis**
- **-IBR Preparation** and Dispositioning
- **-Desktop Operating Procedures**
- **-CAM Training** and Mock Interviews

When time is of the essence or when you have a personnel shortfall, we can help with your EVMS implementation. Call us today to see how we can help you to achieve your goals.
